

You are Invited to the Global Collaboration Coffee!

Persistent and pervasive: tackling PFAS through science and policy - a global perspective

Monday, March 23, 9:30—11:30 am
Room 5B, Upper Level, San Diego Convention Center
SOT 65th Annual Meeting, San Diego, California

Per- and polyfluoroalkyl substances (PFAS), a large class of synthetic chemicals widely used, are now recognized as one of the leading environmental and health concerns worldwide, which make them a perfect topic for the Global Collaboration Coffee. Characterized by high chemical stability and resistance to degradation, PFAS are now ubiquitous: they persist in the environment, accumulate in living organisms, and can be detected in human biological matrices even years after exposure. IUTOX aims to foster scientific and worldwide dialogue on a complex and evolving issue, while promoting an integrated and multidisciplinary approach to PFAS risk management.

You are invited to display materials about your upcoming meetings and activities at the IUTOX exhibit booth #737. Global Gallery posters will be on display during the SOT Annual Meeting.

AGENDA

- | | |
|---------|---|
| 9:30 AM | Chat and Networking |
| 9:45 AM | Welcome and Introductions: Flemming Cassee, IUTOX Secretary-General and Cynthia Rider, SOT President |
| 9:50 AM | Panel Discussion: <i>Persistent and pervasive: tackling PFAS through science and policy - a global perspective</i> |

CHAIR: Dr. Flemming Cassee, Professor in Inhalation Toxicology, Faculty of Veterinary Medicine, Utrecht University, Utrecht, the Netherlands

PANELISTS: (Each panellist will have approximately 5 min to present her/his view)

Michael Dourson: TERA, USA

Jon Urban: ToxStrategies, USA

Emanuela Corsini: Laboratory of Toxicology, Università degli Studi di Milano, Italy

Angela L. Slitt: University of Rhode Island, USA

Kristin. M. Eccles: Health Canada, Canada

Jun Kanno: National Institute of Health Sciences, Nissan Tamagawa Hospital, Japan

Kannan Krishnan: Cal EPA, USA

Ian Delaere: Expotox Pty Ltd, Australia
