

The American College of Toxicology ([ACT](#)) in conjunction with IUTOX is eager to continue educational opportunities for the worldwide toxicology community. Such commitments are consistent with the mission of IUTOX to support the development of the next generation of toxicologists, as well as the mission of ACT to “Educate, Lead, and Serve.” Consistent with these goals, ACT has developed a relevant, high-quality Continuing Education Course for the 11th Congress of Toxicology in Developing Countries ([CTDC11](#)) in Kuala Lumpur, Malaysia in June 2021, co-sponsored by IUTOX and the Malaysian Society of Toxicology (MySOT).

In continuous support of enhanced international outreach and education, ACT provides up to five (5) [International Grants](#) each year to attend the ACT Annual Meeting held in November. Applications are due May 1 of each year, so interested parties should plan in advance to submit applications. The [42nd ACT Annual Meeting](#), November 14–17, 2021, is planned to be held in National Harbor, Maryland, USA (near Washington, DC). The 43rd ACT Annual Meeting, November 13–16, 2022, will be held in Denver, Colorado, and the location for the 44th ACT Annual Meeting will be in Orlando, Florida, USA November 12–15, 2023 (see [ACT calendar](#) for details). Plan now to attend and [apply for a grant](#).

For 2021, graduate students and doctoral level toxicologists awarded an International Grant will be provided a waived virtual meeting registration fee and a gratis Continuing Education course. Grant recipients must present a poster based on their research. Accepted applicants’ research will be published in the *International Journal of Toxicology*, the official journal of ACT.

Besides scientific meetings with continuing education, ACT offers week-long, virtual [educational classes](#) (see 2021 courses below), [webinars](#) (both free Signature Webinars and [eLearning](#); and some of these are geared towards early career professionals), plus our [ToxChats](#)® podcasts throughout the year. The [new eLearning Series](#) (currently six modules is focused on Special Topics in Toxicology and provides educational opportunities online to practicing toxicology professionals.

Virtual classroom-based educational courses for 2021 include:

- [Toxicology for Pharmaceutical and Regulatory Scientists](#)
March 29–April 2, 2021, Live Q&A with Speakers
- [Practical Reproductive and Developmental Toxicology](#)
Co-Hosted with the Society for Birth Defects Research and Prevention
May 17–21, 2021—Live Q&A with Speakers
- [Advanced Comprehensive Toxicology](#)
August 2–5, 2021, Live Q&A with Speakers

Note that some educational materials can be made available free-of-charge upon request with appropriate justification. To inquire about opportunities, email [ACT Headquarters](#).

The ACT strives to provide outreach materials that advance toxicologists globally. The *International Journal of Toxicology* ([IJT](#)) is one such valuable forum for articles and critical reviews that promote basic

toxicology research, facilitate toxicology practice, and highlight contemporary issues in toxicology. ACT membership for students is FREE and benefits include many useful resources for toxicologists including [employment and other opportunities](#) which are periodically posted on the [ACT website](#).
