

American College of Toxicology

ACT's Free Signature Webinar Series Recordings Now Available!

The American College of Toxicology hosts quarterly webinars on current topics in toxicology, including primarily drug and chemical safety assessments as well as webinars on professional development topics. Presenters are experts in their field, with backgrounds in government, industry or academia. This webinar series provides accessible education to ACT members and, more broadly, to scientists worldwide. ACT's webinars are reaching thousands of people, spanning the globe.

Access webinar recordings on topics like these today:

- **Your Job Search: Cover Letters, CVs, and Interviews—Oh My!**
